H.H.C. for the grant.

Received a bid for the- painting and fixing the wood on the church.

\$15,700.00

Comment:

Mary went to a meeting for historical property list for the county on April 1. Mary said she asked why isn't the church listed for the county. And if it would possible to add the church onto the historical list for the township. It meets the qualifications to list it. Mary tries to talk to the president of the group, that was in charge of the meeting. But he was busy. She has given the information on the building and contract info. She hasn't received any phone call back on if we can get the church on the township list. (plan to follow a update on the contract him) The group is a plan to have a meeting down the road (timeframe?).

Everyone -The old tavern building on the right side of the Carlisle Pike. (coming from the Giant Foods) Needs to be turned in the county for neglect. Trash on the property and the grass is never cut. Codes need to be enforced.

Nancy said, we should send Phil do is what we have done to the building since we receive the building.

Mary said she has been trying to get the church building listed onto the historical list for a Township, County, and State. This will help us get more grants for the building.

Mary- Needs to get the pine tree down in front of the church. And get the two trees next to the church taken down.

8:40 pm meeting adjourned
Motion to end - Nancy Miller
Second to end - Lynn P.
